Our story

"We are a happily 'mixed' family whose everyday life is made up of Italian, Swedish and Finnish customs and food culture. We've never had time, or even will, to seek perfection – we laugh at mistakes and go with the flow, especially in the kitchen! For us, family and good food have always been the foundation of a happy life.

When is the last time you smiled in the kitchen? Cooking at home is so much fun and a lot easier than people often think. We at HEIROL want to inspire people to cook more at home – and spend time around the table with loved ones."

Good food makes love visible.

Cristina & Rolf Moborg

HEI(MO) + ROL(F) = HEIROL

The Turku based family business HEIROL Oy has brought kitchenware to Finnish tables for over 30 years. Heimo Lehtonen founded the company together with his son Rolf Moborg in 1991 starting from his garage.

35 years of HEIROL®

35 years of designing tools for kitchens where life happens.

When we look back, what makes us most proud is not simply the number of years, but the fact that our products have found their place in so many homes.

Our story began in our own home. As a father of four, I've always known our kitchen to be a place of chaos, laughter, and joy, a space where we gather and memories are made.

Through this, it also became clear how essential safe, high-quality tools were. Not just in terms of convenience, but for creating moments that matter. That same experience inspired us to make products that other families could rely on and enjoy every day.

From the very beginning, our vision has been simple and clear: to create thoughtfully designed cooking and baking tools that endure, tools that feel right in your hand, perform beautifully year after year, and are made with care for both people and the environment. For 35 years, we've believed that good food deserves good tools. Our commitment to durable, PFAS-free materials isn't a trend, it's a reflection of who we are and what we stand for.

A brand becomes meaningful only when it becomes part of your life. Seeing our products in your everyday meals, celebrations, and traditions is the greatest reward we could imagine. We look forward to continuing this journey with the same dedication, curiosity, and passion that have guided us since day one.

HEIROL x sustainable development

In today's world, focusing on sustainable development should be a foregone conclusion for every company.

To do our part in the battle for a sustainable future, HEIROL has always kept the well-being of nature and people as a focal point in the manufacturing process of our products. In our operational efforts, we make sure to keep sustainable manufacturing, durable materials, and carbon-neutral logistics a priority.

For Rolf Moborg, a father of four and the CEO of HEIROL, it has always been a given, that all the products need to be non-toxic and durable. Only the best and fair in all respects will do. Naturally, Moborg uses the products with his family every day, just like our customers do.

We say ”no to PFAS!”

In January of 2022, HEIROL has signed an agreement to join environmental organization ChemSec's NO TO PFAS movement – an attempt to reduce and stop the usage of fluorinated chemicals (PFAS), such as per- and polyfluoroalkyl substances, also known as forever chemicals.

As an advocate for sustainability, HEIROL has partnered with WWF (World Wildlife Fund), been at the forefront of switching all frying pan and cake form coatings PFAS-free, and was the first to introduce ceramic coatings in Finland.

Choosing a long-lasting product is good for everyone, especially nature. Rather than buying yet another pan every year, purchasing a proper, long-lasting, and high-quality pan is far more ecological for the planet, and your wallet.

This is the only right way to act, especially in the future.

100% PFAS-FREE

Actions speak louder than words.

HEIROL is the first Finnish company that is a part of global initiative to remove all harmful PFAS-chemicals from use.

HEIROL strives to avoid the use of plastic in packaging. All materials favored by HEIROL are recyclable and reusable.

All HEIROL shipments are carbon neutral and all transport emissions are compensated.

HEIROL IN THE KITCHEN HEAT

Loved by professionals

As we know, cooking without the right tools isn't as enjoyable as one would like. Good humor amongst co-workers doesn't help much if you're left holding just the handle of a frying pan, or your meat doesn't sear but boils on the pan.

A professional kitchen is a demanding and hectic environment, in which the quality and functionality of kitchenware are crucial. HEIROL products can withstand wear and tear like no other and for that reason, they are used by many professional chefs in high-end restaurants.

Our selection includes high-quality cookware and kitchenware for where the magic happens, the kitchen, as well as beautiful tableware and serving utensils for the front of the house.

Let the experience speak for itself:

"I have worked in the field for more than 30 years. HEIROL pans are the **best** there is!"

MARKO RAUHALA, RESTAURANT MAMI

"I've used HEIROL in my restaurants for years. If you want quality, HEIROL is definitely the **number one.**"

HENRI ALÉN, TOP CHEF

"Everything has **always** worked well with HEIROL."

PEKKA TERÄVÄ, TOP CHEF

”Fry, sauté and boil - designed for it all.

COOKWARE

Not just pans and pots, but instruments of love.

Boil, fry, and sear with high-quality cookware. Our selection includes everything you need for cooking; pots, pans, and ovenware. The wide range of products includes long-lasting classics such as cast iron and stainless steel pots and pans, as well as ceramically reinforced non-stick coated pots, sauté pans with lids, wok pans, and frying pans.

The literal act of cooking your food is a major key component when making food – don't let your kitchen tools be the reason for a lousy result. From our variety of high-quality cooking dishes, you will find pots and pans suitable for any kind of stovetop. Our first-class cookware has been manufactured with the focus that all our products can be used both at home and in a professional kitchen.

The best cookware investment of your life

HEIROL Pro Steelsafe™ – the best kitchenware investment of your life. The Steelsafe™ pans will reshape the way you look at cookware.

We started with a goal to find a way to combine the durability and heat-efficiency of steel pans and the user-friendliness of coated pans. Through hard work and dedication, the result was the innovative Steelsafe™ series. HEIROL Pro Steelsafe™ has a 3-ply steel structure with an aluminium heart, and a coating on the frying surface, which is protected by a patented steel honeycomb structure – making the pans extremely durable and easy to use!

The patented steel honeycomb structure is 0,5 mm above the coating, therefore steel utensils can also be used on the pan without a worry of damaging the coating. The aluminum heart makes sure that the heat spreads efficiently and evenly all around the pan. All the Steelsafe™ pans are suitable for all stoves, including induction, and can be used in the oven as well (max 260 °C).

Your lifelong cooking companion

HEIROL Blacksteel is a professional grade black carbon steel pan where thoughtful design, trustworthy quality and features that take home cooking to another level collide.

The special treated black carbon steel makes for excellent non-stick qualities and better corrosion resistance than in normal carbon steel pans. Blacksteel pans are treated with nitride, after which they are heated up in the oven using nitrogen dioxide, causing for the black oxide layer to form. The Blacksteel pans are also pre-seasoned with vegetable oil, which further improves the corrosion resistance of the pans.

The pans' non-stick qualities only get better over time with use. The 3 mm thick body won't bend in even the toughest use. The pans are made to withstand high temperatures and they are suitable on all stoves, oven, grill and even open fire. The long handle is riveted for ultimate durability. The pan heats up extremely quickly and it has excellent and energy efficient heat conductivity.

Add some groove into your kitchen

The GROOVE series cookware will bring good vibes into your kitchen. The Groove pans and pots are practical and a sight for sore eyes. The coating on the cookware is fully ceramic and titanium enforced, making it more durable than a traditional coated pan, and **free of any PFAS compounds**.

If you are looking to save some space on your stovetop and maximize the amount of food you can cook at once – Groove is your choice. **Its modern design with straight edges gives you 25% more frying surface!** All the pans and pots in the series are excellent for everyday use, but since it is coated, it is especially great for cooking eggs, oatmeal, and sauces.

The Groove pans and pots are suitable for any stovetop and the oven (up to 180 °C). To ensure that the heat spreads evenly when cooking, the pan has a cast aluminum body and a 6 mm base that has a full induction plate made of steel.

COOKING WITH HEIROL ENJOY

SUPER DELICIOUS

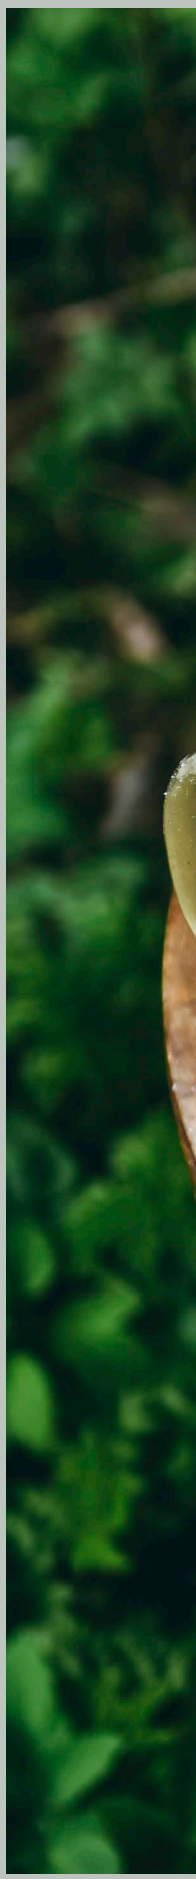

Dutch baby

DOUGH

6 eggs
4 dl milk
¾ dl sugar
2 tsp vanilla sugar
1 tbsp ground cardamom
2½ dl wheat flour
2 tbsp potato starch
½ tsp salt
50 g butter

TO SERVE

Strawberries
Raspberries
Blueberries

Beat the eggs with a mixer until fluffy. Slowly pour the milk in a thin stream while continuing to whisk. Then whisk in the sugars, cardamom, flours, and salt. Mix until smooth. Let the batter rest in the bowl for 10 minutes.

Preheat the oven to 225 degrees. Add the butter to a metal baking dish (or Heirol Royal Pearl casserole pan) and place it in the hot oven to warm for 5 minutes. Pour the batter into the dish and return it to the middle rack of the oven. Bake for about 20 to 25 minutes until the pancake rises well and has a beautiful golden color.

Serve immediately, topped with fresh berries and powdered sugar. Use a wooden spoon or spatula to serve. If it isn't all eaten at once, transfer the baked pancake to another storage container to avoid damaging the non-stick coating.

Strike while the cast iron is hot

A cast iron pan is an essential piece of equipment for any chef. It not only transitions from grill to stovetop to oven with ease, but it's versatile enough to sear steaks and seafood or bake fluffy frittatas and cakes. Also, the durable material improves over time, forming a natural non-stick coating that prevents the food from sticking. Cast iron is practically indestructible, so long as you know how to clean and handle it, you can pass it down to the next generation.

The Big Ear series includes a pot and a frying pan - the classics you need. The matt enameling makes them easy to clean and protects them from rusting. Cast iron remains at its best when used regularly, so get cooking!

SUPER TASTY

Apple pie in a blini pan

2 PORTIONS

A sheet of puff pastry dough
2 tbsp of cane sugar
2-3 fresh apples
Butter
Organic lemon juice
1 egg

Preheat the oven to 220 °C. To prepare the blini pan, lather butter on the cooking surface. Use a pastry wheel to cut out a piece of the dough the size of your blini pan. Save the rest of the dough for decoration. Place the piece of dough onto the buttered blini pan and sprinkle some cane sugar on top.

Use an apple core peeler (or cut) to take out the inside portion and cut the apple into similar sized slices. Place the apple slices on top of the dough. Squeeze the lemon juice on top. If you want some extra yummy flavor, add some sugar and butter on top of the apple slices.

Cut some slices of the remaining dough, about 1.5cm in width, and form a "grid" with them on top of the apples. Use a pastry brush to smear the dough slices with the egg. Place the blini pan in the oven and bake until it reaches a beautiful brown color. Sprinkle some powdered sugar on top and serve on the side of a scoop of vanilla ice cream.

KITCHEN KNIVES

Whether you are a professional chef or just getting started with cooking, having the right set of tools will set you up for success. Everything begins with your kitchen knives. Unless you are only cooking pasta and oatmeal, the kitchen knives you use to chop, slice, and dice matter, both for your comfort and the ease with which you prepare your food.

From our wide selection of high-quality kitchen knives, you can find knives for general and specific purposes, for all skill levels. Each situation calls for the right kind of knife, but few essentials will get you far. A chef knife, a serrated bread knife, and a paring knife are something that every kitchen should have. Our two fantastic series offer everything you need and a bit more!

Cutting with a dull knife is not the sharpest thing to do. High-quality, sharp kitchen knives make cutting way more fun! Since they are kitchen essentials, our selection also includes knife accessories such as knife blocks, sharpeners, and knife bags.

SUPER TASTY

Steak with cheesy parmesan mashed potatoes

3-4 PEOPLE

STEAK

400 g of sirloin steak
1 dl of olive oil
50 g of butter
Fresh rosemary
Salt
Blackpepper
Garlic spice
*Spices to taste

PARMESAN MASHED POTATOES

1 kg of potatoes
50 g of butter
175 g of parmesan cheese
350 ml of cooking cream
Salt

Start by washing and peeling the potatoes and put them in boiling water seasoned with salt and make sure they are covered completely! The potatoes take about 15-20 minutes to cook, but you'll know they're done when you can easily prick them with a fork. Meanwhile, grate the parmesan cheese and add it to a bowl with the butter, cream and salt. When the potatoes are cooked, pour off the water and push the potatoes through the potato press. Mix all the ingredients together until you get a smooth consistency! Always remember to taste if you need more salt or even butter or cream if it's too thick!

Prepare the steak for cooking by taking it out of the fridge 30 minutes before cooking. Next, dry the steak with a paper towel to remove excess moisture. Then add all the seasonings to all sides of the meat, this will give the meat extra flavour when it is cooked. Prepare the pan by adding a generous amount of oil and allowing it to heat up to a high temperature. Add the steaks to the pan and cook for 3-4 minutes on each side if you want the steak to be medium rare. During the last 4 minutes, add the butter and rosemary and start basting the melted butter over the steak with a spoon. When the steak is done, remove it from the pan and let it rest for 10 minutes before cutting!

Tip: Use the butter and oil mixture left in the pan as a sauce on top of the steak and mashed potatoes for the perfect burst of flavour!

Tip: A pan with a thick base, such as a cast iron or carbon steel pan, is best for frying steak.

KNIVES & ACCESSORIES

STAY SHARP

Keep your high-quality knives at their peak performance

SHARPENERS

In order to keep your high-quality knives at their peak performance, they need to be taken care of regularly. Our selection includes a variety of different knife sharpeners.

STORAGING OF KNIVES

Poor storaging is the biggest influencer for your knives getting dull – knives may get damaged if they make contact with other knives or other kitchen supplies, so carry and store your knives properly. Hand washing your knives also keeps them sharper!

MISCELLANEOUS KNIVES

Expand your kitchen's knife selection to make cooking easier and more enjoyable. Our selection includes plenty of options for even the most specific needs.

Beautiful and practical

Beautiful and practical wooden cutting boards will stand the test of time and usage! A high-quality cutting board is multi-functional and a necessity for every chef. A firm, wooden cutting board is a tool that belongs to every kitchen's basic equipment. One cutting board is not nearly enough, you shouldn't cut your chicken and onions on the same board as you dice your fruit, for example. Small and light cutting boards are easy to clean and they are especially handy in smaller kitchens.

Wooden kitchen tools have a number of benefits. They won't scratch your cooking surfaces, they look wonderful when set on display, they don't conduct heat, and are comfortable to hold and use. Wood is also a natural resource, and opting for kitchen tools that are made from nontoxic, biodegradable material is an eco-friendly decision.

SUPER TASTY

Linguine with a rich prawn sauce

SERVES 4

3 tbsp of olive oil
3 cloves of garlic, crushed
1,5 dl of a dry white wine
400g of prawns
1 tbsp of crushed chili flakes
Zest of one lemon
Juice of half a lemon
salt
pepper
400 g of linguine pasta
A handful of flat leaf parsley, chopped

Start by bringing a large pot of water to a boil for the pasta. Remember to add salt only once the water is boiling. Cook the pasta until al dente, following the package instructions.

While the pasta cooks, heat a generous drizzle of olive oil in a large pan - we used our 4.1L Royal Pearl casserole pan, ideal for generous, family-style meals.

Set the heat to medium. Once the oil is hot, add the crushed garlic and chili flakes, allowing them to sizzle and release their aroma. Pour in the white wine, then add the zest of one lemon and the juice of half a lemon. Let the mixture simmer for 1–2 minutes to allow the flavors to meld.

Add the prawns to the pan. Cook them for about 2–3 minutes per side, depending on their size - be careful not to overcook, as they can turn rubbery. We used large prawns, which required slightly more time. Season with salt and freshly ground pepper. Taste the sauce and adjust the lemon juice if needed for extra flavor.

Once the pasta is cooked, drain and add it directly to the pan. Toss well to coat the pasta in the flavourful sauce.

Finish with a handful of freshly chopped parsley. Serve warm and enjoy!

Keep your counters clean with our upside-down mills. This product was designed by HEIROL's very own CEO, Rolf Moborg, who disliked how traditional pepper and salt mills often left counters messy. He came up with the idea of an upside-down mill and sent the design into production. Since then, it has become a customer favorite and remains popular to this day.

STEEL PROTECTS FROM LIGHT, AIR & SMELLS

RECYCLABLE

Oil with ease

A meeting of purity, extra virgin olive oil, and stainless steel.

Stainless steel is not only hygienic and easy to clean but also defends the oil from oxidation due to light and contact with oxygen. This means that the Olipac bottles will keep intact the nutritional and organoleptic characteristics of the extra virgin olive oil over time. Stainless steel bottles are durable and dishwasher-friendly.

For additional help with your oil pouring, our selection includes three oil bottle pour spouts!

COOKING WITH HEIROL ENJOY

Pay attention to the details

A cocktail strainer is essential if you prepare drinks with a shaker and want to pour them straight into a glass – the strainer collects all the crushed fruit, berries, leaves, and other solid ingredients, leaving you with a smooth fresh drink.

”Dinner is ready! is what love sounds like.

TABLE SETTING

We believe that cooking food and beautiful tableware improve people's mental health. With a gorgeous table setting, not only are you respecting your guests, but you are also making ordinary life a fiesta.

Plates, bowls, cutlery, cups, mugs, and everything in between. Our newest addition, the Nosse Ceramics with HEIROL collection, is Portuguese hand-made stoneware, that includes 5 separate series that can be mixed with one another, giving you the opportunity to assemble a unique table setting for any meal. Take a look and find your favorites!

Good food deserves to be paired with a lovely setting.

Our styling tip: simple, yet elegant pieces paired with elements from Nature (flowers, fruits, leaves, etc.) make up the best, most tasteful tables!

SUPER EASY

Lemon tiramisu

Savoiardi biscuits
3 cups / 7,5 dl milk
1 cup / 2,5 dl lemon curd
7,5 dl cream
500 g mascarpone
1,2 dl caster sugar

Whisk the cream and icing sugar until the cream is soft, but not thick. Add the mascarpone to another bowl and whisk in the cream. Dip one biscuit at a time into the warm milk and create an even layer on the bottom of the pan. Spread half of the cream on top. Add another even layer of lemon curd. Repeat with another layer of biscuits and cream. Decorate by piping on the cream and lemon curd. Cover and let sit in the refrigerator overnight. Enjoy the next day.

Tip: you can buy ready-made lemon curd in the shop or make it yourself at home! You can find our lemon curd recipe in our lemon chamomile cocktail post on our inspiration page as well as on our instagram!

SUPER DELICIOUS

Easy protein pancakes

PANCAKES

2 dl oat flour (you can easily make this by blending oat flakes into flour)

2 tbsp vanilla-flavored or unflavored protein powder

2 eggs

2 tbsp mild olive oil

2 dl almond milk

Oil for cooking (e.g. spray olive oil)

FILLING

2 dl vanilla quark

2 dl whipped cream

Juice of half a lemon

Blueberries

Fresh dates, chopped into small pieces

Almond butter

Chopped hazelnuts

Add all ingredients to a blender and blend until smooth. Alternatively, whisk together in a bowl. Let the batter rest for 10 minutes. Add a little more liquid if the batter thickens too much.

Heat the Royal Pearl frying pan over medium heat and lightly spray with oil. Pour about ½ dl batter onto the pan and spread it slightly with the back of a spoon. Cook for about 2 minutes, until the surface is set and the bottom is golden brown. Flip and cook the other side quickly. Avoid overcooking to keep the pancakes moist and tender.

In a bowl, mix the vanilla quark and whipped cream together. Stir in the lemon juice.

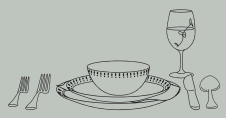

Fill the pancakes with the quark and cream mixture, blueberries, and chopped dates. Drizzle with almond butter and sprinkle some chopped hazelnuts on top.

” CULINARIO – For the love of spaghetti.

Due to my Italian heritage, I've had the chance to familiarize myself with two very different food cultures. Spaghetti, and all kinds of pasta dishes, have always been our family's favorites, but I often said to my husband Rolf, that the Finnish cutlery is far too light to eat pasta. I wanted to introduce a cutlery series to our selection, which would fit this need, and this is how the Culinario series was born." | Cristina Moborg

Potato Mille-Feuille

4 PORTIONS

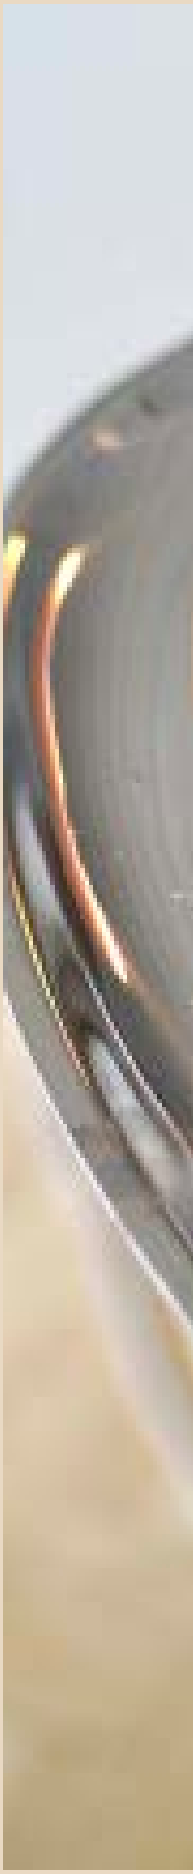

4 medium-sized potatoes, equal in size
200 g of cold-smoked salmon
1 ball of buffalo mozzarella
Salt and pepper
Chives

Wash the potatoes properly and use a mandoline slicer to make thin slices out of them. Boil the slices in a pot for about 10 minutes. Gently pour out the water so the potatoes won't break. If you are using a traditional oven tray, cover it with a baking sheet. With a HEIROL Pro oven tray, spreading a bit of oil or butter will be enough.

Place the potato slices on the tray and try to place them by size, so your Potato Mille-Feuille's will be the same size. Pour a dash of olive oil on top and sprinkle some salt and pepper. Bake the potatoes for about 10 minutes at 200°C, until the slices are golden brown.

Slice the mozzarella into same-sized bits and season the smoked salmon slices with lemon juice. Take the potatoes out of the oven, place a piece of mozzarella on a potato slice, place another potato slice on top, and one more layer of mozzarella and potato. Repeat for all the slices. Place them back in the oven and bake until the mozzarella starts to soften.

Take the Mille-Feuille's out of the oven, place a salmon slice on top, and finish off however you want; chives, basil, dill, and rosehip pepper all work extremely well.

Bake a cake that's beautiful from all angles

An anodized aluminium cake pan is a popular choice among professional bakers, so why not bake like one at home!

Anodizing is an electrochemical process that converts the metal surface into a decorative, durable, corrosion-resistant, anodic oxide finish. Meaning, that anodized aluminium cake forms are more durable, give you an evenly baked result, and the surface doesn't stick as much as traditional aluminum. Get familiar with the products, find the one that suits you best, and enjoy baking with the best baking equipment!

SUPER EASY

Luscious chocolate cake

6 eggs
150 g sugar
1 dl flour
350 g baking chocolate
125 g butter

Melt the butter in a pot, cut the chocolate into smaller pieces, and it to the pot. Stir until the chocolate has melted.

Separate the egg yolks from the egg whites. In a bowl, whisk the egg yolks and sugar into a foamy mixture. Add the flour. Combine the chocolate batter with the dough. In a separate bowl, whisk the egg white into foam. Pour 1/3 of the egg white foam into the dough, stir properly, add the rest of the egg whites, and stir gently.

Pour the finished batter into a 26 cm prepared cake pan.

Bake in the oven for about 20 minutes at 225°C. The cake gets even better when you keep it in the fridge overnight, if you have the patience that is.. Decorate with fresh seasonal berries or fruit. Serve with whipped cream.

Gingerbread muffins

CAKES

3.5 dl all-purpose flour
1 tsp baking powder
1 tsp vanilla sugar
1/2 dl dark cocoa powder
200 g butter
2.5 dl brown sugar
3 eggs
1/2 dl milk
50 g gingerbread cookies, crumbled

CHOCOLATE ICING

1/2 dl vanilla cream cheese
12 pcs of chocolate

In a bowl, mix together the flour, baking powder, vanilla sugar, and cocoa powder. In a separate bowl, mix the room-temperature butter and sugar until light and fluffy. Add the eggs one at a time, beating well after each addition. Gradually add the milk and flour mixture to the batter in small portions, alternating between the two, and mix until smooth. Stir in the crumbled gingerbread cookies.

Fill each muffin cup halfway with batter. Place a small spoonful of cream cheese in each cup and add a piece of chocolate on top. Cover with the remaining batter.

Bake on the middle rack at 200°C for about 20–25 minutes, until the muffins are fully baked.

SUPER EASY

Bacon & blue cheese mini pies

3 SMALL PIES

200 g salty pie dough
1 egg
1,5 dl cream
Blue cheese to your liking
50 g bacon
1 pear
Handful of walnuts
A bit of rosemary
Salt
Black pepper

Preheat the oven to 220 °C and place the savoury pie crust in the mini pie tins. Cook for 4-5 minutes.

Cook the bacon in a pan until crisp and golden brown. Place the bacon on a paper towel to remove some of the grease. When the bacon has cooled lightly, chop it into small pieces.

Mix together the egg, blue cheese and cream with a pinch of salt and pepper. Put the egg mixture and bacon pieces in the pie forms.

Cut the pear into thin slices and place them on top in a round shape. Chop the walnuts and add on top with the rosemary. Place back in the oven for around 10 minutes.

Tip! Replace the bacon with spinach to make this meat-free!

Salted caramel glazed donuts

THE DOUGH

1 egg
1 ½ dl milk
½ dl rapeseed oil
3 dl flour
1 dl sugar
2 tsp baking powder
1 tsp cardamom
½ tsp salt

THE GLAZING

1 dl whipping cream
1 dl brown sugar
50 g butter
1 dl powdered sugar

ON TOP

Sea salt flakes

Preheat the oven to 200 °C. Prepare your donut form. In a bowl, mix the egg, milk, and oil. In a separate bowl, mix the dry ingredients and use a strainer to add them to the dough. To get perfectly shaped donuts, do not fill the cups all the way to the top.

Bake in the oven for about 8 minutes. Do not over-bake the donuts or they will go dry. Remove the donuts off the form and let them cool down.

Mix the cream, butter and brown sugar in a coated pot. Heat until the mix starts boiling and boil for 2 minutes while keeping the mixture constantly moving. Let the caramel glaze cool down and add the powdered sugar. Dip the donuts into the glaze and drizzle some sea salt flakes on top.

Psst!
These yummy donuts were made in a 12 cup donut form. So easy!

SUPER DELICIOUS

Gingerbread brookies

BROWNIE DOUGH

100 g butter
70 g of dark chocolate
1 3/4 dl sugar
1/4 teaspoon salt
1 1/2 eggs
1 3/4 dl wheat flour

COOKIE DOUGH

75 g butter
3/4 dl sugar
1/2 egg
3/4 teaspoon baking powder
2 teaspoons gingerbread spice
2 dl wheat flour
100 g white chocolate chips (or pieces)

Melt the butter in a saucepan. Remove from the heat and add the chocolate pieces to the melted butter. Stir until chocolate is melted. One by one, add sugar, salt, egg and flour. (Tip: you can halve the egg easily by first breaking and mixing it in a measuring container and then pouring only half of it into the sugar, salt and flour mixture. Remember to save the other half for the cookie dough.) Pour the dough into the pan. Pre-bake the base at 200 degrees for 10 minutes.

Beat butter and sugar until frothy. Stir in the egg. Add baking powder and gingerbread seasoning. Stir in the flour in a few batches and finally the chocolate pieces. (Save a small amount of chocolate pieces to put on the surface.) On top of the base, add the cookie dough in nugget-shaped pieces. There is no need to spread out the cookie dough. Continue baking for about 13 minutes. When done, press the rest of the chocolate pieces onto the surface. Let it cool and put it in the fridge until the brookie is completely cold. Cut into squares and enjoy!

Psst!
These yummy brookies were made in this 18 cm square pan. So easy!

SUPER TASTY

Carrot banana bread

BANANA BREAD

2 dl spelt flour
2 dl almond flour
1 tsp baking soda
1 tsp cinnamon
¾ tsp baking powder
¾ tsp salt
1/8 tsp nutmeg (optional)
2 overripe bananas (mashed)
1 dl finely grated carrot
1 dl maple syrup, honey, or agave
½ dl soy milk
½ dl coconut oil (melted)
2 tsp vanilla extract
Crushed nuts, shredded coconut, etc. (optional)

FROSTING

1.5 dl Greek yogurt
1.5 dl mascarpone
1 tbsp maple syrup

Preheat the oven to 175°C. Grease a loaf pan or line it with parchment paper. In a bowl, mix the dry ingredients. You can add crushed nuts or shredded coconut if desired. In another bowl, mix the wet ingredients (including banana and carrot) and add the melted coconut oil. Pour the wet ingredients into the dry ingredients and mix until smooth. Pour the batter into the prepared loaf pan and smooth the surface. Bake in the middle of the oven for 45 minutes, or until a toothpick inserted in the center comes out mostly clean. Let it cool.

Prepare the frosting by mixing all the ingredients together, then spread it over the cooled loaf. Finish off with edible flowers and enjoy!

Pay attention to the details

Use the cake edge wrap to create higher cakes than the cake pan. The cake edge wrap also helps in creating clean edges to cakes and makes removing the cake from the pan easy.

SUPER EASY

Xmas gingerbread

200g of butter
150g of sugar
2 eggs
1 tsp of vanilla extract
1 tsp of ginger powder
330g of flour
1 tsp of baking soda
Powdered sugar for decoration

Heat the oven to 180 °C. Mix the butter and sugar into a fluffy foam. Add eggs one by one to the batter. In a separate bowl, mix the flour, vanilla extract, and ginger powder. Add the mix into the batter and mix well. Split the batter into two and place them in the fridge for 15 minutes. Place the cooled down batter in between two baking sheets and use a rolling pin to roll the batters into 3mm thick layers.

Use a star-shaped cookie cutter to separate your gingerbreads and place them on a baking sheet covered baking tray. Bake in the oven for about 8 minutes. Decorate the cooled down gingerbreads with some powdered sugar.

People and food are the spice of life.
Especially when served together. Because nothing beats
breaking bread with your gang, your tribe, your family.
So roll up your sleeves, cook your heart out and set the table.
Then gather up your darlings and sweeties, rakkaat ja murut,
de käraste och älskade, tesori e pomodori
and enjoy being a human.

Now that's amore.
